

## Bensan Body Care Wipes with Barrier Cream

Bensan Body Care Wipes with Barrier Cream are intended for the whole-body cleaning and care of:

- intensive care patients,
- bedridden patients
- elderly patients
- people having limited access.

3% of Dimethicone in the formulation first creates a strong barrier layer on the skin which can help reduce the water loss across the skin surface, but also help to protect the skin from external factors, preventing the irritation, pressure sores, bed sores and most importantly prevents the incontinence-associated Dermatitis.

Bensan Body Care Wipes with Barrier Cream are rich in ingredients, including 3% of Dimethicone, Vitamin E, Provitamin B5, Glycerine, Chamomile Extract, Aloe Vera, Phospholipid.

The products are made from soft tissue with three-dimensional special fabric applied without irritating the skin. Bensan Body Care Wipes with Barrier Cream improve patient feeling, adding a pleasant smell.

The product is dermatologically tested.

## FORMULATION

- **Aqua:** It is required for skin providing a solvent effect.
- **Dimethicone** performs the function of emollient, skin conditioner and skin protectant. Dimethicone forms a strong barrier on the skin which can help reduce water loss across the skin surface, but also helps protect the skin from external factors (body fluids).
- **Vitamin E** is known for its antioxidant properties which help reduce free radical damage in addition to improving the overall scalp and hair health. Vitamin E reduces the acute and chronic skin damage caused by UV irradiation.

- **Provitamin B5** has excellent anti-aging **properties** because it soothes, softens and moisturizes the skin and reduces the appearance of fine lines and wrinkles. Its exfoliating **properties** fight free radicals and promote new skin cells. Pro-**Vitamin B5** helps keep the skin soft, smooth and healthy. It also has an anti-inflammatory effect that can help stimulate the **skin's** healing processes.
- **Glycerine**: Emollient, Humectant
- **Aloe Barbadensis extract**: Plant has moisturizing, softening, soothing, relieving redness impact. o Panthenol: Vitamin B5, increases the softness of the skin, removing redness and moisturizes.
- **Lauryl glucoside**: It obtains from Soft surfactant, cleanser and oil of coconut.
- **Polysorbate 20**: Fatty acid. Very good dermatological features, o / w non-ionic emulsifier. Softening agent and is used as a thickener in creams and liquid emulsions. Vegetable oils are used as solvents.
- **Tocopheryl acetate**: Vitamin E acetate protects the skind from the sun's ultra violet rays.
- **Allantoin**: Keratoplasty substance, softening, moisturizing and soothing herb.

## SPECIFICATION
