Bensan IPA Econo Wipes

Bensan IPA Econo Wipes presoaked wipes are ready-to-use for hard, non-porous environmental surfaces as well as surfaces of non-critical medical devices that get in touch with the intact skin.

The wipes can be applied on stainless steel, plastic, Formica® and glass among others. The formulation consists of a combination Isopropyl Alcohol and surfactants and offers excellent cleaning and disinfection efficacy against a wide range of pathogenic microorganisms within a 1 minute exposure time without leaving any pesky QAC stains.

The non-toxic formulation is compatible with a wide variety of medical devices and can be applied broadly. Examples include general patient areas, endoscopy, Intensive Care Units, oncology facilities, emergency rooms, dialysis centers, high-touch surfaces which are compatible with alcohol.

Examples include:
- Blood pressure and neck cuffsIV polls
- Ultrasonic probes
- Dialysis units
- Patient beds, mattreces
- Patient monitors, neck collars
- Bed railings
- Computer monitors
- Keyboards among others

Features:

Bactericidal, Virucidal, Fungicidal and Tuberculocidal in 1 minute or less
