| Flammable | Yes |
| Form | Liquid |
| pH | 7-9 |

Toxicological Information

| | |
|----------------------|--|
| Carcinogenicity | None of the components of this product are listed as a carcinogen or suspected carcinogen by OSHA, IARC, and NTP |
| Chronic Effects | None known |
| Reproductive Effects | Not expected from this product |
| Mutagenic effects | Not expected to cause mutagenic activity |
| Eye | Can cause eye irritation |
| Skin | No adverse effects are known |
| Inhalation | High concentrations may cause upper respiratory tract irritation |
| Ingestion | No adverse effects are expected |

Instructions for Use

Using sterile forceps, select one sponge half way down, ensure that half of the sponge extends past the forceps tip. Dab the sponge on others within the package to remove excess solution. Apply solution to the procedure site; use repeated back-and-forth strokes for at least 30 seconds. Completely wet treatment area.

REF

Discard sponges after single use along with any left-over solution.
Use in well-ventilated area and do not heat the solution. apply to clean, completely dry, residue-free, intact skin.

When hair removal is necessary, use a surgical clipper prior to surgery. The dye will slowly fade from the skin. If quick removal is needed, use soap and water or 70% Isopropyl Alcohol.

Storage

Store between 15°C and 25°C.
Store away from Sunlight
Shelf Life: 3 Years

Disposal

Dispose as hazardous waste according to local regulations.
