# Bensan Foaming Hand Sanitizer

## 70% Alcohol-based Quick Action No-Rinse Hand Foam

70% Alcohol-based  
Quick Action No-  
Rinse Hand Foam

### Application Areas

Alcohol-based quick-action, no-rinse hand and skin foam. Virucidal, Bactericidal, Fungicidal and Tuberculocidal in 30 seconds. Consists of 70% Ethanol, Emollients, Foaming Agents, Water

Excellent anti-microbial action and skin tolerance. Suitable for frequent use.

Bensan Foaming Hand Antiseptic is highly effective against Bacteria incl. drug resistant organisms, enveloped and non-enveloped viruses, fungi and yeast and TB.

The solution does not interact with Latex, Vinyl or Nitrile Gloves and allows for quick donning after use.

Bensan Foaming Hand Antiseptic is recommended for use as an antiseptic handwash and preoperative hand scrub in operating theaters or other highly exposed areas.

Bensan Foaming Hand Antiseptic is an effective first aid antiseptic that cleans minor cuts, scrapes and burns while helping to reduce the risk of infection. The solution can be used in small amounts on affected areas up to three times daily.

Bensan Foaming Hand Antiseptic is available in Euro bottles or Neptune bottles which conveniently fit into most commonly used automatic and manual dispensers.

Always cover wounds with sterile bandages after the solution is dried up.  
The solution complies with the EU Biocides Regulation 528/2012.
